

I am trying to remember everything

Universe yellow - We all went looking for it - Desolate Ocean Dust - I am trying to write it all down
A Love Rescue Song - From down, through daylight to twilight and then dusk - The Eyes Roll Past Alcatraz - But here they remember for you, they remember for you, they remember for you
In this room, away from which all the conscious are - But here they remember for you, they remember for you, they remember for you
One talk, more and more underground - But here they remember for you, they remember for you, they remember for you
I want to stay and one day I will be - But here they remember for you, they remember for you, they remember for you
True Afterglow Night Angel static - But here they remember for you, they remember for you, they remember for you
Let me remember everything - But here they remember for you, they remember for you, they remember for you
At Orleans Lucas Delia - But here they remember for you, they remember for you, they remember for you
I am trying to remember everything - But here they remember for you, they remember for you, they remember for you
The Laughing Face Dream - But here they remember for you, they remember for you, they remember for you

MYSPACE DRAGON HOARD

LOST WORLDWW MUSIC

El març del 2019 s'anunciava que tota la música emmagatzemada a la xarxa social Myspace des d'abans del 2015 havia estat eliminada de manera permanent per culpa d'una suposada negligència professional. Uns 50 milions de cançons, produïdes per uns 14 milions d'artistes, havien desaparegut per sempre. The Internet Archive -una biblioteca dedicada a preservar arxius digitals- va aconseguir recuperar 450.000 de les cançons perdudes i les va recopilar en un gran arxiu amb el nom de Myspace Dragon Hoard.

Myspace Dragon Hoard (Lost WorldWW Music) és un àlbum del gènere world music (músiques del món) els temes del qual estan compostos per samples (fragments) de cançons de Myspace recuperades.

L'àlbum s'ha llançat en format digital i està allotjat en un servidor que, actualment, està situat al CERN (Meyrin, Suïssa), lloc de naixement de la World Wide Web. El servidor és un dispositiu portàtil que anirà migrant al voltant del món i convertirà els amfitrions en els guardians temporals de l'àlbum. Si tu també vols acollir el servidor, escriu a hola@danielmorenoroldan.com.

In March 2019, it was announced that all the music stored on the Myspace social network since before 2015 had been permanently deleted due to supposed professional negligence. Some 50 million songs produced by around 14 million artists were gone for ever. The Internet Archive - a library that preserves digital archives - managed to recover 450,000 of the lost songs and compiled them into a vast archive called Myspace Dragon Hoard.

Myspace Dragon Hoard (Lost WorldWW Music) is a world music album that features tracks consisting of samples of recovered Myspace songs.

The album has been released in digital format and is hosted on a server that is currently located at CERN (Meyrin, Switzerland), the birthplace of the World Wide Web. It is a portable server that will migrate around the world to make the hosts the temporary keepers of the album. Please write to the following email address if you would also like to host the server: hola@danielmorenoroldan.com.
